Date: March 18, 2020  
Re: Applications for County Stormwater and State Septic permits

Applications for Stormwater permits will be processed by mail. The application can be printed off online at [www.wilsoncountyttn.gov](http://www.wilsoncountyttn.gov) and should be mailed to the office along with a check to Wilson County Stormwater for the appropriate fees. A receipt will be mailed to you. Make sure to fill in all blanks on the application, as failure to do so could lead to delays in your initial Stormwater inspection. The items under "Initial" section on the application should be done prior to making application.

Final inspections may be requested by phone at 615-443-2120.

Applications for State septic applications, soils evaluations, and inspections can be applied and paid for online at <https://tdec.tn.gov/septic>.

All Stormwater applications and payments should be mailed to:

Wilson County Stormwater  
233 East Gay Street  
Lebanon, TN 37087
